Data shows past performance. Past performance is not indicative of future performance and current performance may be lower or higher than the data quoted. For the most recent monthend performance data, visit www.sevencanyonsadvisors.com. Investment returns and principal value will fluctuate and shares, when redeemed, may be worth more or less than their original cost. The Advisor may absorb certain Fund expenses, leading to higher total shareholder returns. The Advisor has contractually agreed to limit expenses to 1.40% until at least 1/31/2025. This agreement is in effect through January 31, 2025, may only be terminated before then by the Board of Trustees, and is reevaluated on an annual basis. 30-day current net SEC yield is calculated by dividing the net investment income per share for the 30 days ended on the date of calculation by the maximum offering price per share on that date. The figure is compounded and annualized. The 30-day yield unsubsidized is calculated in the absence of temporary expense waivers or reimbursements which results in a lower yield.

The Fund was organized as a successor to the Wasatch Strategic Income Fund (the "Predecessor Fund"), a series of Wasatch Funds Trust. The Predecessor Fund was reorganized with and into the Fund on September 10, 2018. The Fund has adopted the historical performance of the Predecessor Fund.

Seven Canyons Funds will deduct a 2.00% redemption fee on Fund shares held 60 days or less. Performance data does not reflect this redemption fee or taxes.
